Kyle: 100% of the work was completed that was requested
Spencer: 100% of the work was completed that was requested.
Drew: 100% of the work was completed that was requested.

In our group, everyone participated together using mostly messenger to resolve issues. I would, at the time of writing this evaluation; rate both of my teammates highly. We asked many questions and guided us to answers using API references and understanding what the goal was or explaining how to get there was very easy and they both showed excellent teamwork skills.
